

LOCAL AND OTHERWISE.

Wm. Denton was in town on a short visit
this week.

W. R. Stanley came in from Vanderbilt
this week.

Read the legal notice under the head of
New-to-Day.

Rain last night and to-day, making the
roads beautifully walkable.

Mrs. W. S. Godbe of Bullionville, spent
several days in town this week.

John Roder and wife departed Sunday
afternoon for a week's visit in DeLamar.

Mrs. R. A. Martin came up from De-
Lamar on Friday's stage and is visiting with
her mother here.

Because a young man courts his girl in
a dark room, it is no sign that he is devel-
oping a negative.

The Board of County Commissioners meet
on Monday next. Present your bills to the
Clerk on Saturday if possible.

The social event of the season is coming.
Read in another column of this issue the ad-
of the grand ball to take place on the 26th
of next month. The admission is low and a
first class time is assured to all.

On Monday next at 2 o'clock there will be
a footrace on Lacour street between two of
our young men, rivals for the affections of
the lower to give up the contest.
The distance is 75 yards and W. J. Dooley
has agreed to act as Judge.

George Nesbitt left here Tuesday after-
noon for Cedar springs, with a wagon load
of provisions, and a force of men will im-
mediately commence digging a ditch to lay
a water pipe from Cedar Springs to the
town of DeLamar.

Hon. C. H. Patchen has after steady
labor secured the pardon of W. R. Fontain.
Fontain was sent from here about three
years ago to the State's Prison to serve a
term of fifteen years, for the killing of E.
O. Griffith at a coal camp near here.

Henry Freudenthal, Ed. Freudenthal and
I. N. Garrison leave to-morrow on a pros-
pecting trip in the Kowich range of moun-
tains, situated about thirty miles south-
west of Groom Mining District; a country in
which little, if any, prospecting has been
done.

The I. O. O. F. Order will celebrate their
seventy-sixth anniversary by giving a grand
ball at Thompson's Opera House on the 26th
of April. This undoubtedly will be a fine
affair and like all that are given by that
Order, will be well attended.

A. H. Godbe, general manager of the
Phoenix Reduction Company of Bullion-
ville, was in town Tuesday last and stated
that the reduction works will start up about
the first of April on a lot of ore from the
April Fool mine situated in Ferguson dis-
trict.

The impossible is as hard to do in Nevada
as elsewhere, as proof of which we extract
from the Carson Appeal: H. Bressler, the
man who opened a store here a few weeks
ago, and tried to run it without advertising,
has packed up and started to hunt new
pastures.

J. A. Denton having purchased the inter-
est of W. H. Perry in the Pioche and Mil-
ford stage line, will assume charge of the
entire line on the first of April. Good
stock, accommodating and good-looking
drivers will always be on the lookout for
the welfare of passengers.

Hon. J. A. Denton, Lincoln County's rep-
resentative in the Assembly, arrived home
Thursday's Milford stage. He is exceed-
ingly well and seems to have stood the battle
bravely. Mr. Denton was scored on every
turn by our state papers in the west, but
his record will compare favorably with that
of any member present at the term just
passed.

Commencing with the first of April
(Monday), the mail from DeLamar will go via
Panaca and leave Pioche at 7 a. m. on Mon-
days, Wednesdays and Fridays, and for
Hiko on Monday and Friday at 7 a. m.
The mail from DeLamar will arrive on
Wednesdays, Fridays and Sundays at 6:30
p. m. and from Hiko on Wednesdays and
Sundays at 6:30 p. m. The mail from De
Lamar and will now be one day later on the
new schedule than it has been.

NEVADA MINES BONDED.

The Felix Knight Property Bonded
for \$100,000.

The Salt Lake Tribune of March 26th,
contains the following interesting report of
an important mining deal in Lincoln county:

"More than an acre of surface outcrop-
ping bearing gold and silver, is the story
that came in from Lincoln county, Nevada
yesterday through the well-known practical
mining expert, Mr. V. L. Thomas of Eureka.

The property concerned consists of three
patented and two unpatented claims belong-
ing to the Felix Knight estate. They are
located about fifty miles west of Frisco in a
country that affords abundance of wood and
water for mining purposes, and that is in
itself a miniature paradise for residence pur-
poses. The ore bodies of the claims are in a
contact, with porphyry for overhanging
wall and lime for the foot-wall. The vein
runs north and south, and three patented
claims known as the Tilden, Roadside and
Summit, cover it for a width east and west
of 1800 feet by a length north and south of
1500 feet.

On the Tilden claim Mr. Thomas went
down in a shaft some 100 feet in depth, and
found quartz all the way down. On a drift
running south-east there was a four-foot
vein with a two-foot pay streak. An aver-
age from the four feet went twenty-six
ounces in silver and \$6 in gold.

About 150 feet further up the hill Mr.
Thomas went down another shaft to a depth
of 120 feet, finding quartz again all the way
down. From this drifts had been run off
right and left, each of which revealed a six-
foot vein, between the two of which lay
another ore body whose extent or value Mr.
Thomas did not assay. The two drifts, how-
ever, ran forty ounces silver and \$5 in gold.

On the Roadside was a shaft some 140
feet deep. In one of the inclines was a
face of ore on a body which proved to be
thirty-four feet in length, four feet in
width and six feet in height, which assayed
up to 500 ounces in silver. The average run
of ore in the incline and stopes was five to
149 ounces in silver and from \$6 to \$12 in
gold.

One of the most remarkable features of
the property was a shaft five feet square
which was sunk in a solid body of quartz
for a depth of over sixty feet. Assays from
both sides and ends of this ran fifty ounces
in silver and \$8 in gold.

Mr. Thomas was so delighted with the
property that he took a bond on it, the
amount of which is understood to run con-
siderably above \$100,000. He firmly be-
lieves that it is one of the greatest prop-
erties in sight in the West.

One of the chief beauties of the property
is that there is a spring in connection with
it, so located that it will feed a three-inch
pipe to any part of the land covered by the
claims."

Dr. Price's Cream Baking Powder
World's Fair Highest Medal and Diploma.

After several days of fine weather the
wind commenced yesterday morning, blow-
ing at lively rate all day and winding up
with a heavy rainstorm which continued
until this morning.

County Assessor H. E. Freudenthal leaves
to-morrow for the south on an assessing trip.
Owing to the last Legislature being dilatory
in fixing the State rate of taxation, it being
about the last Act that it passed, (which
was placed at 90 cents,) the personal prop-
erty receipt books for this county did not
arrive till last night. County Assessor
Freudenthal states that had the Legislature
fixed the State rate in the early part of Feb-
ruary in which case the receipt books would
have been here a month sooner, an assess-
ment of \$15,000 would have been saved on
sheep which have been grazing on the ranges
near the line of Utah, but were driven back
two weeks ago.

A carload of machinery for the Nation
Nickel Company has arrived at Lovelock
and will be at once taken to the mines of
the company, which are in Churchill county.
A smelter is to be erected this Spring, and
a boom is expected when it starts up, as
enough ore has been extracted to keep it
running several years.—Silver State.

Lieutenant Governor Sadler has declared
that he will no longer affiliate his name with
the ignominy of the Silver party. He has de-
clared that he will henceforth cast his lot
with the Republican party. The Silverites
don't like this, as the following item from
the Carson Tribune attests: Mr. Sadler
was deposed as Chairman of the Board of
Commissioners at a meeting of that body
recently.

The usual Constitutional proviso that
Legislative members shall be free from
arrest while in attendance on the Legisla-
ture, and while going to and returning from
it, appears not to throw its protecting
mantle around the Nevada statemen. The
Reno Gazette reports that warrants were
in the hands of the officials there recently
for the arrest of one of the Nevada Legisla-
tors, who, it was claimed, was absconding
into California without settling accounts
with his creditors. The solon, however, had
gone through on a previous train, and was
thereby not compelled to suffer the indignity
of spending a night in the Reno calaboose.

In the recent Municipal Election in Oak-
land the Populist candidate, John L. Davis,
was elected by a majority of over 800.

Teacher—How many of my scholars can
remember the longest sentence they ever
read?

Billy—Please, mum, I can.

Teacher—What is there only one? Well
William, you can tell the rest of the scholars
the longest sentence you ever read.

Billy—Imprisonment for life.—London
Tid-Bits.

DE LAMAR DOTS.

The DeLamar mill started up on Tuesday
last.

Miss Annie Gillan went to Pioche on
Tuesday last.

BORN.—At DeLamar, Nevada, March 23,
1895. To the wife of T. E. Edwards a son.

The telephone charge on telegrams to
Pioche is 50 cents and for five minutes con-
versation 50 cents.

A 100 horse power electric hoisting plant
has been ordered by Captain DeLamar for
the DeLamar Company. The cars in the
tunnels will also be operated by electric
power.

A saloon will be opened in Wertheimer's
frame building by Hans Olsen about the
first of next month.

About 300 feet east of the mill a tunnel
has been started to tap the mines of the De-
Lamar Company, at a greater depth than
any of the present workings. Work on this
tunnel will be pushed ahead as rapidly as
possible.

Arrivals and Departure of Mails.

PIOCHE, PANACA AND MILFORD.
Leave every day (except Sunday) 7 A. M.
Arrive every day (except Monday) 6:30 P. M.

It is expected that the Dredge Company
will resume operations at Dayton about the
first of next month.

The DeLamar Company shipped out of
here this week four bars of bullion valued
at \$12,200.—DeLamar (Idaho) Nugget.

Mrs. Mary Lease has been announced as
a candidate for Mayor of Wichita, Kansas,
and a most exciting contest is expected.

Having no Congress on his hands and no
more bonds worth 119 to sell at 104½, Mr.
Cleveland can now give another demonstra-
tion of his genius as a duck-hunter.—New
York World.

Gold is coming into the mint from Cali-
fornia mines at the rate of \$1,000,000 per
month. If the hydraulic mines could be
worked the amount would be increased to
\$2,500,000 a month.

It is said that at the expiration of his
present term, President Cleveland intends
making a trip to Europe. No intimation is
given of his intention to visit that portion
of the United States lying west of the
Mississippi before or after the expiration of
his present term.

Cuba insists on considering itself in a
state of revolution in spite of the grandiose
proclamations of the Spanish Governor that
peace has been restored. In cases of this
sort actions speak louder than words, and
the presence of armed revolutionists in the
field outweighs any number of official pro-
nouncements. Late advices show that the
rebels, as the Spaniards call them, have not
been dispersed and that Spain will need all
her available force to put them down.

The finances of North Dakota are at such
a low ebb that Governor Allen refused to
sign the appropriation bill. In consequence
all the state institutions, with the exception
of the penitentiary and insane asylum, will
be closed. Among those shut up for lack of
funds is the State University, two normal
schools, soldiers home, reform school, deaf
and dumb and blind asylum. Notwith-
standing the slurs cast on Nevada by the
people of the east, she has not yet had to
close any of her public institutions for lack
of funds.

LEGAL NOTICE.

In the District Court of the Fourth Judicial Dis-
trict, County of Lincoln, State of Nevada.

In the Matter of the Estate of Richard
Gorman, Deceased.

Order to Show Cause Why Order of Sale of Real
Estate Should not be Made.

It appearing to the Judge of said Court, by the
petition this day presented and filed by J. O. Geis-
bert the Administrator of the Estate of Richard
Gorman, deceased, praying for an order of sale of
real estate, to pay the charges of Administration:
It is therefore ordered by the Judge of said
Court, that all persons interested in the estate of
said deceased, appear before the said District Court
of the Fourth Judicial District, on Monday the
29th day of April A. D. 1895, at 10 o'clock in the
forenoon of said day or as soon thereafter as peti-
tioner can be heard, at the court room of said
District Court of the Fourth Judicial District, at
the town of Pioche in said County of Lincoln, to
show cause why an order should not be granted to
the said Administrator to sell so much of the real
estate of said deceased as shall be necessary:
And that a copy of this order be published at
least four successive weeks in the Pioche Weekly
Record, a newspaper printed and published in
said County.

G. F. TALBOT, District Judge.
Dated March, 20, 1895.

Friday Eve. April 26, 1895

The Silver Situation.

Doubtless the silver men in the Senate
counted noses and saw that under the
courtesies which hedges the Senate, the
gold-bugs would, if necessary, consume
another session in filibustering to prevent
the silver men from coming to a vote. We
do not believe that Mr. Cleveland will call
any extra session, and that means that the
silver cause will go over till December,
unless, in the meantime, the German bi-
metallic movement shall take form and some
results grow out of it. We presume that
had a great deal to do with influencing the
Senate to press the matter no further this
session. In the ten months which are to
pass away before Congress meets in regular
session, silver men ought to be particularly
active. We wish in the west that those
who can would subscribe and raise a great
fund for the distribution of silver literature
into the hands of the farmers of the country
and the merchants in the cities.—Kingman
(Ariz.) Miner.

H. H. Heath, who was mining on the
north fork of the Feather river, about
eighteen miles north of Oroville, was drown-
ed recently while crossing the river. Search
has been made for the body as far down
as Oroville. Heath was 57 years old
and had mined in Butte county for thirty
years.

A special mouthpiece for public telephones
has been introduced in Germany with the
object of avoiding the spread of diseases
carried by the condensed moisture of the
breath. A pad or large number of disks of
paper, with a hole in the middle, is inserted
in the mouthpiece, and the upper disk of
the paper is torn off after every conversation.
—Electricity.
